## **DETAILED ACTION**

### ***Drawings***

The drawings were received on 5/28/2010. These drawings are acceptable.

### ***Claim Objections***

Claims 12 and 13 have been objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim can only refer to other claims in the alternative and a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims not been further treated on the merits.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-11 have been rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 8, line 3, "the elongate elements" lack antecedence.

In claim 9, the claim is misdescriptive. The elongate elements do not have grooves 3 located thereon. Figure 1 and 2 shows the grooves 3 are formed on element 6a and not on the elongate elements 1.

In claim 10, "conical narrowings" does not have antecedence in the specification. What exactly are "conical narrowings"?

In claim 11, "the recto-verso button" lacks antecedence

**Claim Rejections - 35 USC § 102**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8-11 have been rejected under 35 U.S.C. 102(b) as being anticipated by Prestinari, 1985835.
